

Delta RMC Motion Controllers Re-Certified for PROFINET

March 12, 2016 – Battle Ground, WA – Delta Computer Systems, Inc. announces its RMC Family of Motion Controllers have passed PROFINET IO Device re-certification. Re-certification ensures that existing certified products comply with ongoing enhancements to the PROFINET specification and certification process.

This recertification status and related firmware updates to our RMC75E and RMC150E closed-loop Motion Controllers means Delta's RMC products are 100 % up to date with today's PROFINET.

The latest conformance tested RMC product versions of PROFINET are available on Delta's website, www.deltamotion.com/downloads for firmware and related RMC software.

RMC Family of Motion Controllers

“Delta customers have employed RMC motion controllers with PROFINET and PROFIBUS communications capability for many years to achieve precise position and pressure/force control in industrial environments,” stated Steve Nylund, Delta’s CEO. “These recertification processes show we are committed to keep our products fully compliant with industrial network standards. This assures our customers that our RMC motion controllers will continue to communicate effectively and reliably on PROFINET networks.” Nylund added.

The high performance motion control products that Delta designs, manufactures and markets are used worldwide for hydraulic, pneumatic and electric closed-loop control in a wide array of single and multi-axis applications, including testing, food, energy, automotive, entertainment, plastics, materials, aerospace, metals, forest products and others.

About Delta Computer Systems: For more than 30 years, Delta has supplied motion controllers, color sensors, and other industrial products that enable OEMs & integrators to build better machines.
