

**FOR IMMEDIATE RELEASE**

***Delta's European Region Adds Director of Business Development***

September 22, 2017 – Battle Ground, WA. Motion control manufacturer Delta Computer Systems, Inc. announced that Delta's Senior Systems Software Engineer, Dr. Tim Gessner, has been appointed as the European Director of Business Development.

Dr. Gessner has assumed responsibility for Delta's sales and distribution management throughout Europe. As Delta's European Director of Business Development, Tim will draw upon over 17 years of experience with Delta in engineering development and applications support and over 30 years of experience in the engineering and business fields.

Having played key roles in the development of the RMC Family of Motion controllers, Tim's business development and engineering background will add immediate value to Delta's European sales distribution channel and with Delta's growing customer base in Europe.

Dr. Gessner holds a Bachelors degree, two Masters degrees, and a Ph.D. from Scotland's University of Edinburgh.

"We are pleased to provide our European customer base a results-oriented person with Tim's industrial fluid power and control systems experience." stated Steve Nylund, Delta's CEO." With Tim initially based at Delta's headquarters in the United States and moving to the United Kingdom in 2018, Delta adds more focus for continued growth in this important International region." Nylund added.

**About Delta Computer Systems**
